

Mitigating Trip and fall claims in health care

THE SOLUTION TO POWER MANAGEMENT!

The MedReel is the first UL/CSA, **green dot certified**, retractable cord reel available for use in health care facilities.

With its patented waterproof design, durable polypropylene case, and convenient retraction mechanism make this the ideal choice for electrical power cord management in a wide range of applications for the health care industry.

APPLICATIONS

The MedReel can be used in many different areas and applications including:

- *Hospital Beds*
- *Crash Carts*
- *Operating Rooms*
- *Trauma Centers*
- *Pediatric Facilities*
- *Portable Equipment*
- *Mobile Medical Units*
- *Mobile Blood Centers*
- *Samples available at no charge*

FEATURES & BENEFITS

The MedReel provides many benefits for its use in many different environments.

- *Water Resistant 4X Enclosure Rated*
- *Impact Resistant*
- *Durable*
- *Convenient to Use*
- *Retracts Out of the Way When Not in Use*
- *Can be Ceiling, Wall, or Cart Mounted*
- *Easy to Mount*
- *Integral Circuit Breaker*
- *Stays Plugged in to the Wall*

The MedReel can be mounted on electric beds, operating theatre beds, portable testing equipment, crash carts, dialysis machines or other electrical medical equipment. It can also be mounted in operating theatres and critical care areas, conveniently out of the way until the cord is pulled down. Please view our mind map to see the magnitude of the markets we currently have visibility and references are available upon request.
